Forecast for Monday 19 Sep 2022

Weather: Mainly cloud overnight with perhaps some light rain at times. A cloudy but mainly dry start to the day, but slowly improving with clouds thinning and breaking to give some blight or sunny intervals. Clouding over with patchy light rain or drizzle across western ranges during the evening.

Chance of cloud-free hill tops above 800m: 30%, becoming 70% by midday, but reducing 20% in the west during the evening.

Low Cloud and visibility: Broken cloud at first with bases 400-600 metres, but small amounts over the Aberdeenshire Hills, and lifting and breaking above most of the rest of the summits by midday. Extensive cloud forming over the Perthshire Hills and Ochils during the evening with bases 400-500 metres along with moderate or poor visibility at times in rain and drizzle.

Met Office Aberdeen Meteorologist's View
Becoming milder from the west.

Forecast for Tuesday 20 Sep 2022
Weather: A rather cloudy start with some light rain or drizzle at times, but this soon dying out with clouds breaking to give some bright or sunny intervals, the best of these likely across the Angus and Aberdeenshire hills.

Maximum wind: South or southwest 20-25 mph, gusts 35 mph

Chance of cloud-free hill tops above 800m: 20%, increasing 80% by midday, but reducing 40% across western ranges later in the afternoon.

Low Cloud and visibility: Broken cloud at first across most ranges with bases 400-600 metres, but this lifting and breaking with most summits clear of cloud by midday. Visibilities good, but moderate or poor at times in early rain or drizzle. Broken cloud forming across western ranges later in the afternoon with bases 500-700 metres.

Temperature: **Glens:** 8 Celsius rising to 17 Celsius
At 800m: 8 Celsius
Freezing level: Well above the summits.
